

Clarification on the Mandatory and Optional Fields in the FI Type Schema

1. FIPs are required to strictly adhere to the FI Type Schema while sharing customer's financial information over the Account Aggregators.
2. In order to facilitate the same, the following clarification is provided in the mandatory and optional fields for each FI Type Schema:
 - a. **Mandatory Fields:**
 - i. Any field or element in schema marked as "**Required**" is a mandatory field or element.
 - ii. FIPs are required to furnish the value for the respective field as available with them.
 - iii. Mandatory fields or elements should not be missing, or null value/ dummy data should not be provided for such fields.
 - b. **Optional Fields:**
 - i. Any field or element in schema marked as "**Optional**" is an optional field or element.
 - ii. FIPs are required to furnish the information for such fields in case value for such fields are available with them.
 - iii. In case the data is not available, it is recommended to exclude the field from shared data.
