Subject: Scheduling downtime for UAT Application on 20th December 2024

We would like to inform you of the upcoming maintenance of Sahamati UAT applications. We will be performing updates to ensure continued optimal performance and security and with below-mentioned upgrade:

- Token Service API enhancements to enable members to select their desired validity period for secrets up to a defined maximum limit (default: 180 days).

Maintenance window

Start Time: Friday 20th December, 2024 6:00 PM IST

End Time: Friday 20th December, 2024 7:00 PM IST

Expected Impact:

Please note that, during the maintenance period in the UAT Environment, some of the users may experience a brief drop when accessing the Central Registry, Token Service, and AA Commons Application. Request you to reattempt after a few minutes.

This will not have any impact on our services in the Production Environment.

If you encounter any issues or have questions following the maintenance period, please don't hesitate to contact our support team at services@sahamati.org.in.

Regards,
Sahamati Tech Team
