Subject: Scheduled downtime for UAT Application on 30th December 2024

We would like to inform you of the upcoming maintenance of Sahamati UAT applications. We will be performing updates to ensure continued optimal performance and security of our infrastructure, along with the below-mentioned upgrade to our application environment:

- Scheduled infrastructure upgrade in UAT environment.

Maintenance window

Start Time: Monday 30th December, 2024 5:00 PM IST

End Time: Monday 30th December, 2024 6:00 PM IST

Expected Impact:

Please note that, during the maintenance period in the UAT Environment, some of the users may experience a brief drop when accessing the Central Registry, Token Service, and AA Commons Application. Request you to reattempt after a few minutes.

This will not have any impact on our services in the Production Environment.

If you encounter any issues or have questions following the maintenance period, please don't hesitate to contact our support team at services@sahamati.org.in.

For more details, please refer to this link in Github and our developer site.

Regards,
Sahamati Tech Team
