TSPs, AAs

Subject: Update to Customer Experience Checklist

This is to inform you of key updates made to the Central Registry onboarding documents to incorporate the Fair Use guidelines published by the Fair Use Councils and Committees.

The Customer Experience Checklist, specifically the **Consent Parameters Table**, has been expanded to include the **attributes of the relevant fair use template** from the Fair Use Template Library.

Please note that participants requesting to onboard **MUST include their AA** in their request for ease of communication. Since consent screens are proprietary to AAs, their involvement in onboarding is highly critical.

All other processes remain unchanged. The revised checklist is attached for your reference, and the updated document will be available on GitHub shortly.

Please share any queries on the fair use template library to fairuse@sahamati.org.in and any queries on onboarding to services@sahamati.org.in.

Regards,
Services Team - Sahamati
